PLANS OF THE MUSEUM OF MODERN
ART IN WARSAW FOR 2024

New Year's Eve. The Art of Maria
Prymachenko. Opening exhibition at
MSN Warsaw's new home

New Year's Eve at the Museum on the Vistula (31 December 2023)

To celebrate its final days in its temporary home at the Museum on the Vistula, MSN Warsaw invites the public to a very special New Year's Eve party. The evening will be filled with performances and DJ sets in collaboration with the Warsaw-based Kem collective. In the spirit of previous New Year's Eve celebrations held at MSN Warsaw's earlier homes—the Museum on Pańska Street and the Emilia pavilion—the MSN Warsaw building on the river will once again be transformed into a dancefloor and performance space. Details soon.

A Tiger in the Garden: The Art of Maria Prymachenko (19 January – 28 April 2024)

The exhibition *A Tiger in the Garden: The Art of Maria Prymachenko* will open at the Museum on the Vistula on 19 January 2024 and run for three months. It will be the last show prepared by MSN Warsaw at this location. The next exhibition will be in the museum's new home, rising at the foot of the Palace of Culture and Science. This show will feature 89 works by Maria Prymachenko from 1982–1994, which will reach Warsaw by convoy from the Andrey Sheptytsky National Museum in Lviv. Prymachenko's paintings are a captivating, surrealist bestiary, a world of visual fable, interwoven with people, animals and plants. The exhibition will be composed around a selection of works from the private collection of

Eduard Dymshyts, a collector and art historian who has been fascinated by Prymachenko's work for many years.

Opening exhibition at MSN Warsaw's new home on Plac Defilad

The new headquarters of the Museum of Modern Art in Warsaw will open to the public in October 2024. The move to the space on Plac Defilad, transport of works, and installation in the main galleries will take place over the summer of 2024. To mark the inauguration of the new building, the museum will hold the biggest exhibition in the history of the institution, a bold new look at artworks from the museum's nearly 20-year-old collection. MSN Warsaw's collection of Polish and foreign art, gathered since 2005, has never been shown to the public before in such a full, multidimensional and coherent presentation. The new opening of MSN Warsaw will also be the first opportunity to fully experience the space of the building on Plac Defilad and its potential to shape the city around it. An extensive agenda of accompanying events is being prepared for visitors, along with the next, 16th edition of the Warsaw Under Construction festival.
